

This Is Really Love

Nick Kamen

Each working day she's down on the street
Looking for no one
The hours are long the money is cheap
But she has no choises

The boss says she has to work harder
He never understands
If he was to know what was coming
Would he let you go

This is really love
Finally knows the meaning of
This is really love
Everything she's ever dreamed of

Deep in the night you lie awake
Praying to someone
The seconds go by and you fall asleep
Adrift on a notion

When out of the blue comes a voice to you
Keep still my lonely one
How many nights have you longed for this
It's a brand new start

This is really love
Finally knows the meaning of
This is really love
Everything she's ever dreamed of

You have been chosen
This child's for you
And now your life has a new meaning

When out of the blue comes a voice to you
Keep still my lonely one
How many nights have you longed for this
It's a brand new start

This is really love
Finally knows the meaning of
This is really love
Everything she's ever dreamed of
