

# Could U Love

Nick Lachey

(Can you get it too, can you get it too  
Can you get it too, can you get it too  
Can you get it too, baby  
Can you get it too, can you get it too)

Sometimes I don't know where do I go  
And who do I turn to  
Cause you, you've found something new  
At somebody who makes you feel so awful

So tell me this time  
Cause you know I'm losing my mind  
Is the feeling mutual  
Cause I, I just gotta know, I gotta know  
Tell me (could U love)  
I get my heart in this thing (would U love)  
If I give my best thing (could U love)  
Here's the question (could U love)  
Could you love me  
Could you love me (could U love)  
I leave myself wide open (would U love)  
And it's sad I'm hoping (could U love)  
These words unspoken  
Could you love me

I, I can't hesitate  
Cause now it's too late  
Just look what you've done to me

So tell me this time  
Cause you know I'm losing my mind  
Is the feeling mutual  
Cause I, I just gotta know, I gotta know  
Tell me (could U love)  
I get my heart in this thing (would U love)  
If I give my best thing (could U love)  
Here's the question (could U love)  
Could you love me  
Could you love me (could U love)  
I leave myself wide open (would U love)  
And it's sad I'm hoping (could U love)  
These words unspoken  
Could you love me

Do you understand  
I give you all I can  
What more can I do  
Oh no no I gotta let you know  
I gotta let my feeling show  
But would you love, baby could you love me  
The way I love you

Could U love  
I get my heart in this thing (would U love)  
If I give my best thing (could U love)  
Well here's the question (could U love)  
Baby tell me could you love me

Could you love me  
I leave myself wide open (would U love)  
And it's sad I'm hoping (could U love)  
These words unspoken  
Could you love me

Could you love  
Would you love  
Would you love me  
Could you love  
Oh baby  
Could you love me
