

Everywhere But Here

Nick Lachey

Here is the place we used to go,
We were laughing.
Hand in hand walking down the road,
We were happy.
Here is the corner where said,
Kiss me stupid,
I remember you in red.

We were something again,
We were something yea....
We would some be...

Your in my head,
Your under my skin.
Your everywhere,
But here, but here
Its a mystery,
How you can be,
Everywhere but....

Here's the time we meet,
On your lunch break.
Corner table,
Just you and me,
On a Monday.
In the rain,
We ran and ran,
To your apartment.
You called in sick to work again.

We were something again,
We were something yea....
Would some be...

Your in my head,
Your under my skin.
Your everywhere,
But here, but here
Its a mystery,
How you can be,
Everywhere but here...
Your everywhere but here..
You everywhere but here..
You everywhere but here.

We were something again,
We were something yea....
Would some be..

Your in my head,
Your under my skin.
Your everywhere,
But here, but here
Its a mystery,
How you can be,
Everywhere but here...
