

Dose of You

Nick Lowe

Who in the world ever would have thought it?
Where in the world is the grip on myself?
Why in the world did I ever comment?
What in the world was I thinking of?

Spreading from the hard part first,
Is a bad infection getting worse and worse.

I caught a dose of you tonight.
I need a stiff shot, badly!
I took a lethal dose of you tonight,
Oh yeah!

Who in the world are you, pretty baby?
Where in the world did you spring up from?
Why in the world are you so contagious?
How do I get what I've got to get gone?

Specialists among them to themselves,
They say there ain't no cure, private or National Health on this one.

I caught a dose of you tonight.
I need a stiff shot badly.
I took a lethal dose of you tonight,
Oh yeah!

Spreading from the hard part first,
Is a bad infection getting worse and worse.

I caught a dose of you tonight.
I need a stiff shot, badly!
I took a lethal dose of you tonight,
Oh yeah!

I get a sound of thunder...
It's like a heavy gong...
I hear a storm warning...
On every tongue made of silver,
Every heel made of high,
Every dress made of tight,
Ever look, every sigh!

I caught a dose of you tonight.
I need a stiff shot, badly!
I took a lethal dose of you tonight,
Don't want to spread it all around,
I caught a dose of you tonight.
I need a stiff shot, badly!
I took a lethal dose of you tonight,
So give me pills and powder,
I caught a dose of you tonight.
I need a stiff shot, badly!
I took a lethal dose of you tonight
