

# Heart

Nick Lowe

Heart, why are you pounding  
like a hammer  
Heart, why are you beating like a drum  
Heart, why do you make  
such a commotion  
When I'm waiting for my baby to come

Oh heart, don't do it  
if it's not the real thing  
Heart, I get so easily deceived  
Heart, there is no other I can turn to  
If not you, heart, then who can I believe

Oh heart, there must be no mistake  
Beware, special care from the start  
Oh heart, though I'm glad  
For the first bit of love we've had  
Make certain or else  
you're gonna break  
Heart, you motor of emotion  
Heart, you've never been  
like this before  
Heart, at first I thought  
that you were joking  
But I know deep down in you  
that you're sure

Oh heart, there must be no mistake  
Beware, special care from the start  
Oh heart, though I'm glad  
For the first bit of love we've had  
Make certain or else  
you're gonna break  
Heart, you motor of emotion  
Heart, you've never been  
like this before  
Heart, at first I thought  
that you were joking  
But I know deep down in you  
that you're sure

Oh heart, heart, heart  
I said heart
