

# Love So Fine

Nick Lowe

Well I met a girl and she made me lose my lines  
I don't do nothing but want her all the time  
She makes the Mona Lisa look rough  
She's a true fine lover  
Don't want no other  
So Fine  
A love so fine

Each time I see her I can't wait until I see her again  
Although she looks like a fire ...  
I only want to stay close friends  
She's got me flapping like a flag on a pole  
She's a gas on her back and as a matter of fact she's so fine  
A love so fine

She can't be after my money  
Cause she knows I ain't got none  
She only wanna feel her pretty little body and make out on the  
floor for fun

Each time I see her I can't wait until I see her again  
Tonight I am gonna tell her that I don't wanna be just friends  
She's got a pair of tits that just won't quit  
Everything that she's got you know I like it a lot  
She's so fine  
A love so fine

Each time I see her I am getting ready to see her again  
Tonight I am gonna tell her hey baby no more folks friends  
She starts the love bone shake when the hour is late  
And make the backbone quiver when the egg man delivers  
She's so fine  
A love so fine
