

# Nitrous

Nick Mulvey

And if you see old nitrous man  
Selling laughter from a can  
Tell him that the dream still fits the plan  
That's why we're waiting at the table  
Yes, he's welcome at the stand  
And I won't mind  
The moment you can say  
That you saw in a dream  
How you can let me know anyway  
That you've seen the day  
No more to pay  
Trouble came and drove  
But trouble drove away  
We get, we get mad with no words to say  
We get mad waiting  
Always waiting to get paid  
Darling we get mad giving too much away

Baby I won't lie  
I didn't want to say  
Until I heard in a dream  
How I can let you know anyway  
That I've seen the day  
No more to pay  
When trouble came and drove  
But trouble drove away  
I see you getting mad with no words to say  
You see me waiting  
Always waiting to get paid  
And darling we get mad giving too much away

We get mad giving too much away  
We get mad with the load and the leverage of each day

But surely there's time for you and me  
Open your mind  
Surely there's plain to see  
You're not alone  
Surely there's time for you and me  
Open your mind  
Surely there's plain to see  
You're not alone  
I'll wait 'till the end of time for you  
Open your mind  
Surely there's plain to see

And baby I won't lie  
I didn't want to say  
Until I heard in a dream how I can let you know anyway  
That I've seen the day  
No more to pay  
When trouble came and drove  
But trouble drove away  
We get mad giving too much  
We get mad giving too much  
We get mad with the load  
And the leverage of each day

So if you see  
Old nitrous man  
Selling laughter from a can  
Tell'em that the dream still fits the plan
