

# You Don't Have To Move That Mountain

Nickel Creek

You don't have to move that mountain  
Just help me Lord to climb it  
You don't have to move that stumblin' block  
Just show me the way around it

We must climb a great high mountain  
To reach God's gracious kingdom  
But in His words you'll find the strength  
If you will just believe them

'Cause you don't have to move that mountain  
Just help me Lord to climb it  
You don't have to move that stumblin' block  
Just show me the way around it

Well, the way is filled with pitfalls  
And sometimes we may falter  
But you can have His grace, my friend  
On your knees down at the altar

'Cause you don't have to move that mountain  
Just help me Lord to climb it  
You don't have to move that stumblin' block  
Just show me the way around it

You don't have to move that mountain  
Just help me Lord to climb it  
You don't have to move that stumblin' block  
Just show me the way around it
