

# This Means War

Nickelback

Climb into the ring for a battle that you can't win  
Swing as hard as you can swing, it will still mean nothing  
Should've seen it coming  
It had to happen sometime  
But you went and brought a knife  
To an all out gun fight

And the only thing to save  
Is the banner that you wave  
To be wrapped around your grave

You've gone too far  
(get up, get up)  
Who do you think you are  
(get up so we can finish this)  
Is this what you came for  
(get up, get up)  
Well this means war  
(get up so we can finish this)

Say anything you want  
But talk will get you nowhere  
The only thing you've brought was psychological warfare  
Well there's no getting out  
And now you got to wonder  
Who will dig you out when you're six feet under

And the only thing to save  
Is the banner that you wave  
To be wrapped around your grave

You've gone too far  
(get up, get up)  
Who do you think you are  
(get up so we can finish this)  
Is this what you came for  
(get up, get up)  
Well this means war  
(get up so we can finish this)

And the only thing to save  
Is the banner that you wave  
To be wrapped around your grave

You've gone too far  
(get up, get up)  
Who do you think you are  
(get up so we can finish this)  
Is this what you came for  
(get up, get up)  
Well this means war  
(get up so we can finish this)

Well this means war
