Children all have saviors Children don't care who saves us Round the corner, round the bend Fingernails torn to the end

Bring back, bring back on me On me

I told them, we scold them Can't console them always Toy soldiers falling Dominoes, but who knows?

Bring back, bring back on me On me

Yeah and I dream of falling stars

And tokes for all my friends

And I will live forever

Yeah and I dream of all I'm worth

And all along the way

And I will never even

Yeah and I will coast through falling prayers

And all along the way

And I will always listen

Bring back, bring back (Or)
Bring back, bring back (We)
On me....
Bring it back, bring it back on
Bring it back, bring it back on
Bring it back, bring it back on

Bring back, bring back (I)
