## **Young Forever**

I used to think that we'd run away One lovely, pretty summer day I remember when you would say We'd be OK, come with me I never knew you would lie to me Take everything from inside of me Your silhouette in the doorway But before you walk away

Don't say goodbye, look in my eyes So that I always will remember Frozen in time, always be mine Baby boy you'll be young forever I'll be over here, you'll be over there I'ma shed a tear but I really don't care Frozen in time, always be mine Baby boy you'll be young forever

I used to think that we'd reunite I'd be your wife, in the real life I thought that you'd come back for me And you would take me away I never knew only as a teen You'd reappear, only in my dream Your silhouette in the doorway But before you walk away

Don't say goodbye, look in my eyes So that I always will remember Frozen in time, always be mine Baby boy you'll be young forever I'll be over here, you'll be over there I'ma shed a tear but I really don't care Frozen in time, always be mine Baby boy you'll be young forever

This is my last cry Is this the only way? This is my own prison I'm frozen in time, in time, in time

Don't say goodbye, look in my eyes So that I always will remember Frozen in time, always be mine Baby boy you'll be young forever I'll be over here, you'll be over there I'ma shed a tear but I really don't care Frozen in time, always be mine Baby boy you'll be young forever

You'll always be mine, frozen in time Young forever (young forever)
