

## Everything Fades

Nicky Wire

Everything fades  
Nothing stays  
Tied to a place  
We don't belong

Everything fades  
It may be delayed  
Frozen not dead  
But grey and decayed

Need a stranger to show me the the truth  
Need somebody to help me through

Everything fades  
It's no bad thing  
Trusting aside  
To what can we cling

Need a stranger to show me the the truth  
Need somebody to help me through  
In our decline we've ebbed and we've flowed  
Nothing gained and nothing to show

Everything fades  
O glorious day  
However we try  
You can't hold back time

Failure can  
Be good for your soul  
It tests your desires  
And leaves you alone

Need someone something somehow  
Serves to remember you as you are  
Need too shelter you from the storm  
Need a place that I can call home

Like a prayer I can hear you calling  
Like a prayer I can hear, hear you calling  
Like a prayer I can hear you calling out for me  
Like a prayer I can hear you calling
