

Easier

Vega, Nico

I've seen the way that you reach when you're all alone
Somebody should tell you if you reach then you'll never grow
I let you lean on me I am an enabler I have to go
You take a rain check maybe you can cash it when you're on your
own

Listen to me

Brace yourself
It's gonna get easier
You've got to hit the ground
Before you can turn around

I've seen the way that you dig when you're in your head
Somebody should tell you if you dig then you'll end up dead
I let you hang on me I am a provider of the drugs you take
You come around in the night when your greedy little smile is f
ake

Listen to me

Brace yourself
It's gonna get easier
You've got to hit the ground
Before you can turn around
