

Family Train

Vega, Nico

Get on the Train
Get on the Train
We are your family, family

We're waiting at the back of the station
Bringing love to the old depot
Take a ride on the family train
And wave to the man on old dirt road

Stranger, oh stranger
Get on the train
Get on the train
We are your family family

Were stomping our feet on the asphalt
Ain't no place for a one man show
Make room for the family train
'cuz were coming through taking men on board

Stranger, oh stranger

If you fall when we march forth
I will carry you all upon my back
Fall when we march forth
I will carry you all upon my back

Get on the train
Get on the train
We are your family family

Get on the train
Get on the train
We are your family family

Get on the train
Get on the train
We are your family family

Get on the train
Get on the train
We are your family family

Get on the train
Get on the train
We are your family family

Get on the train
Get on the train
We are your family family

Get on the train
Get on the train
We are your family family

Get on the train
Get on the train
We are your family family

Family!
Family!
Family!
