

# Bang

Nicole Scherzinger

Let it bang, let it bang  
Let it bang, let it bang  
When we?  
You love the way you throw now  
Throw now, throw now  
The way you throw now

Roll up in your love like a drum box  
Doing it hard away  
Hold on baby, like I'm gonna die  
Laying in this spell like a pet shop  
Love the way you give it to me grid lock  
And I don't care, I don't care  
I don't care what anybody thinks buy  
When I'm with you I don't think about  
We go on and on and on  
To this all night long, night long, night long  
In my zone, my zone, my zone, my zone  
We just let it bang!

Underneath the covers, not colors, just lovers  
Throw it all, throw it all,  
Baby just hold it up, hold it up, hold it up  
Let the air throw down, throw down, throw down  
We just let it bang, we just let it bang  
Throw it all, throw it all,  
Baby just hold it up, hold it up, hold it up  
Let the air throw down, throw down, throw down  
We just let it bang, we just let it bang

It seems like we're now getting initiated  
'Cause the thing is all initiated  
I'm your body like day light  
I know your body like good night  
Go ahead, sweat it all, sweat it all  
Go ahead, sweat it all

We go on and on and on  
To this all night long, night long, night long  
In my zone, my zone, my zone, my zone  
We just let it bang

Underneath the covers, not colors, just lovers  
Throw it all, throw it all,  
Baby just hold it up, hold it up, hold it up  
Let the air throw down, throw down, throw down  
We just let it bang, we just let it bang  
Throw it all, throw it all,  
Baby just hold it up, hold it up, hold it up  
Let the air throw down, throw down, throw down  
We just let it bang, we just let it bang

Baby I got love you on my mind  
And I tell you all the mind  
You've been gone I need retribution  
And your love is my resolution  
I wanna feel you in my spirit

I wish everybody could feel this  
Everybody but god should feel this, feel this

Throw it all, throw it all,  
Baby just hold it up, hold it up, hold it up  
Let the air throw down, throw down, throw down  
We just let it bang, yeah, yeah, yeah, oh yeah.  
Bang
