

Casualty

Nicole Scherzinger

Too close to see so much of love we stopped breathing
Sweet history ain't enough to keep my heart beating
So many tears for you I sacrificed
Too many lies for you I justified
How can you stand there say you know who's to blame
How can you act like everything is OK

R: Don't tell me you love me
Then put a gun to my head
And say I'm not trying, nooh...
Don't tell me you want me
Then come to my bed
And pretend we're not dyin'
One of us has got to leave
Or one of us is gonna be
A casualty

It's cold in here
And my heart's to want you to hold me
Baby, you're never here
But when you with me I get so lonely

I see you talking but your lips don't make a sound
You see me crying but my tears don't hurt you now
How can you stand there say you know who's to blame
How can you act like everything is OK

R:

Breathe in, breathe out,
Defeat that doubt
Over and over again
I stand there, you go,
Remember and I'd fall
Over and over again

R:

One of us has got to leave
Or one of us is gonna be
A casualty
