

# Happily Never After

Nicole Scherzinger

"I don't think I want this anymore, "  
As she drops the ring into the floor.  
She says to herself, "You've left before, "  
"This time you will stay gone, that's for sure."

And he shouted something else  
she drag her suitcase down the path,  
To the driveway.  
She had never gone that far.

Normally this would be  
The time that she  
Would let him talk her out of leaving,  
But this time, without crying,  
As she got into her car, she said,

"No  
'Happily Never After'  
That just ain't for me.  
Because finally,  
I know  
I deserve better, after all  
I'll never let another teardrop fall."

As she drove away she starts to smile  
Realized she hadn't for a while.  
With no destination, she drove for miles  
Wondering why she stayed in such denial.

Laughing about the way he shouted something else  
(shouted something else)  
She drag her suitcase down the path,  
To the driveway (to the driveway),  
She had never gone that far (never gone that far)  
Normally this would be, the time that she (yeah)  
Would let him talk her out of leaving  
But this time, without crying,  
As she got into her car, she said,

"No  
'Happily Never After'  
That just ain't for me  
Because finally, (because finally)  
I know I deserve better  
After all  
I'll never let another teardrop fall."

I'm done, I'm done, said I'm so done, (I'm done, yeah).  
So done, I'm done, I'm done  
I'm free, I'm free, I'm free  
Free to be me, yeah.

She inhales an air she'd never breathed before  
The air of no drama no more.

she said " No  
'Happily Never After'

That just ain't for me  
Because finally  
I know  
I deserve, better after all  
I know I'll never let another teardrop fall" (ooh)

"No  
'Happily Never After'  
That just ain't for me  
Because finally,  
I know  
I deserve better, after all  
I'll never let another teardrop fall"

"No  
'Happily Never After'  
That just ain't for me"  
Because finally,  
I know  
I deserve better, after all  
I'll never let another teardrop fall" (ohh)
