

# Heartbreaker

Nicole Scherzinger

Never thought that I would live to find another love like mine  
Time  
Never thought that I could be in a place to ever see it  
See it fly high

R: I need that heartbreaker  
I need something to lose  
I need that breather  
When it's gone, it leaves a bruise  
Break my heart  
Break my heart, yeah  
Break my heart  
Give it to me good  
Break my heart

I wanna wake up in the morning  
Appear you've moved on like a stone  
In the middle of the night, I see you  
Missing from my arms  
Where have you gone?  
Look what you've done  
So I sit up in this bed and I imagine where you're at  
All this playing games with love, I think this time I've met my match  
What have I done?  
Where have you gone?  
See I love it when you take that part of me  
It's intoxicating, I can barely breathe  
Yes, I love you when you do these things to me  
See, baby, see

R:

What is love? What is love?  
What is love? It's up in the air  
It's neither here nor there  
Spare me the time to explain it  
I just know how it feels  
Too much of it can kill  
When not enough of it is real  
Just enough of it can heal

R:

Break my heart  
Break my heart  
Ooh, show me that it's real  
Yeah, I love how it feels
