

Just a Girl

Nicole Scherzinger

If I was your girl, was your girl
Boy I'd show and prove (show and prove)
That I can do all of those things
That the other girls just can't do
Oh boy, if I was your girl
You would never be blue
Red heels, lips sealed
Except when they're on you

R: Let's do it, let's do it
Let's do it, let's do it all, all
We ain't got no problems
You ain't got no worries
You already ride up, why you in a hurry
Kiss me and I know what I'ma say
Let me give you my best
I don't never need to be on next
Unless you're my ex

Let me play with you (let me play with you)
Spend all day with you (spend all day with you)
For once can I just keep it real?
Let my head down and just be sensitive
I'm just giving

If I was your girl, was your girl
Boy I'd show and prove (show and prove)
That I can do all of those things
That the other girls just can't do
Oh boy, if I was your girl
You would never be blue
Red heels, lips sealed
Except when they're on you

I'm just a girl, I'm just a girl
