

On the Rocks

Nicole Scherzinger

You're all out there
Waiting, to break my heart again
Break my heart different
You're on one team
Yet still contemplating, break my heart again
Oh different

Let's have a drink
Let's have a drink
Do you see right there
Here's to you and me, oh oh
Let's take a shot
Since you've been taking shots
And allow me to serve you this break up on the rocks
On the rocks
And allow me to serve you this break up on the rocks
You never miss a good thing 'til it's gone

Now you're out there, without me
Breaking hearts again, oh dear friend
But I try to tell you
That love will show you that you would break your own heart in the end
Bet you thought all that runnin' round wasn't gon' catch up with you
Let that door hit your ass, I'll photoshop you out this picture
See I wasn't around for this
So you might wanna sit down for this
It hurt so bad that I should cry awkward silence you know why

Let's have a drink
Let's have a drink
Do you see right there
Here's to you and me, oh oh
Let's take a shot
Since you've been taking shots
And allow me to serve you this break up on the rocks
On the rocks
And allow me to serve you this break up on the rocks

Bet you thought all that runnin' round wasn't gon' catch up with you
Let that door hit your ass, I'll photoshop you out this picture

Let's have a drink
Let's have a drink
Do you see right there
Here's to you and me, oh oh
Let's take a shot
Since you've been taking shots
And allow me to serve you this break up on the rocks

You never miss a good thing until it's gone
And allow me to serve you this break up on the rocks
On the rocks
