

Give A Little

Nicolette Larson

Take a chance
What have you got to lose?
It's better than singing the blues
It's your share, waiting everywhere
I'm really trying to tell you the news

Give a little, care a lot
Try to use the love you've got
Someone's waiting over there
Waiting for someone to care

Won't you try
See what you can do
You see I'm talking to you
There's so much more
Why are you waiting?
It's about time
That you started to give

Give a little, care a lot
Try to use the love you've got
Someone's waiting over there
Waiting for someone to share their love

See what you're giving
For once in a life don't be driven
To hide it away

Give a little, care a lot
Try to use the love you've got
Someone's waiting over there
Waiting for someone to care

Give a little, care a lot
Try to use the love you've got
Someone's waiting over there
Waiting for someone to care
