

## Dream Of Summer Days

Nicotine

Sunday morning  
I wake up at sunrise  
I was my face hard  
For my first date  
At the station she ignores me  
To my face she just says goodbye

In your life time  
Will you have the same scene  
That I came across this time?  
What will you do if  
You are told "Goodbye"  
When you want somebody to love?

My love life ended all at once  
I haven't found the reason yet

Everyday I dream of summer days  
My broken heart aches  
I do still feel so bad  
Everynight I pray  
For a cloudy sky  
I'll never cry again  
I may have found my answer

I go walking  
For a long long way  
To meet someone that I need

In broad daylight  
I want to scream aloud  
I was born to love this woman  
Everybody, why do you ignore me?  
Out in public they  
Kill their emotions

In your life time  
Will you have the same scene  
That I came across this time?  
What will you do if you are  
Told "You don't fit!"  
When you want  
Somebody to love?
