

# Forever All Over Again

Night Ranger

I would have swallowed my pride  
I wouldn't be here  
Drinking alone  
I'd be holding her  
'Cause she wouldn't be gone

So God if you're listening  
From somewhere out there  
You know I'm down on my knees  
And if you'd answer one prayer

Then she'd come back to me  
She'd be more than just a memory  
She'd come back to me  
And we would fall in love  
Forever all over again

If she wanted the world  
To be a happier place  
She's stop at least one tear  
From rolling down my face

She'd be changing her mind  
Packing her clothes  
She'd buy a one-way ticket  
That would bring her home

Then she'd come back to me  
She'd be more than just a memory  
She'd come back to me  
And we would fall in love  
Forever all over again  
Forever all over again  
Yeah we would fall in love  
Forever all over again
