

# Night Machine

Night Ranger

I can see the message  
It's written in your eyes  
And it's telling me  
What I'm telling you

We'll walk you through the danger  
And we'll take you for a ride  
Still you see it through  
We'll knock 'em dead for you, yeah

Who's gonna save you this time  
Welcome to the night machine

See the faceless people  
Sell you pretty lines  
If you only knew  
What they're trying to do

And all the gold and silver  
It's slipping through your hands  
Still you're smiling away  
I tell you boy, you're gonna pay

Who's gonna save you this time  
Welcome to the night machine

Welcome, welcome, welcome to the night machine I tell you boy,  
you're gonna pay

Who's gonna save you this time  
Welcome to the night machine
