

# Restless Kind

Night Ranger

Off on your own  
It's a lonely ride  
Seeing the things  
Only seen thru your eyes  
Pick yourself up  
Gonna try it again  
Knowing that this time  
You're reaching the end

A voice inside  
Made me feel that I can fly  
And you'll be there by my side  
Forever

We're the restless kind  
Lay your broken dreams upon the road  
And we will ride  
With the restless kind  
In the morning light  
See the tears, the joy fall from your eyes  
And we will ride  
We're the restless kind

Rolling down the road  
With the wind in your hair  
And maybe we're searching  
For something we can share  
One heart, one soul  
Hold a mountain of dreams  
The circle's unbroken  
And rough around the seams

So don't you fear, my friend  
You know I'll love you till the end  
And I'll be there by your side forever

Yes, I know  
How the world can fall upon you  
And take you down, down, down  
And make you feel like you're hollow inside  
Do you understand  
I will light the candle  
And guide your soul  
Down the highway  
And give you faith in the world

Oh whoa, oh whoa  
Lay your dreams upon the line  
Oh whoa, oh whoa  
We're the restless kind  
Oh whoa, oh whoa  
See the tears, the joy  
Oh whoa
