

## Touch Of Madness

Night Ranger

She wakes in the morning  
Got a smile on her face  
She's not sentimental  
About her night's embrace  
Another lucky day  
Lucky night on the town  
Man she got the touch  
I say she wears the crown  
She say  
"I get high when I want to  
Don't ya think you need it too"

I need a touch, I need a touch of madness  
She changes by night  
It's a crime in the street  
She dazzles the boys  
As she moves though the heat  
Set out all alone  
On a hot summer night  
Man she got the touch  
She makes you sweat all night  
She say  
"I get wild when I want to  
Madness is the thing to do"

I need a touch, I need a touch of madness  
I wake in the morning  
With a smile on my face  
Never sentimental  
About my night's embrace  
Another lucky day  
Lucky night on the town  
Now I got the touch  
Now I make the rounds  
I say  
"I get off when I want to  
Don't you want to feel it too"

I need a touch, I need a touch of madness
