

# When I Call On You

Night Ranger

In the dark of the night  
Will you always be there  
In my hour of need  
Will you be standing there  
When I feel I can't go on  
Will you hold me close  
When I call  
I call on you  
When I call  
I call on you

I needed a friend  
There you were by my side  
My thoughts ran cold  
Your warmth got me by  
I shall never never forget  
It was you that touched my soul

When I called  
I called on you  
When I called  
I called on you

By the grace of your touch  
On the edge of the night  
All that I have to give is me

And the answer is clear  
While voices draw near  
And all I can do is run to you

Tell me where  
now have you gone  
I hope not so far from me

When I call I call on you  
When I call I call on you  
When I call  
When I call on you  
When I call  
I call on you
