

Psychagogoi Gooi - I am the threne singer - Psychagogoi
Gooi - whose song rouses death. Psychagogoi Gooi - All
gnosis is learned - Psychagogoi Gooi - by the grave.
Psychagogoi Gooi - I am the voice - Psychagogoi Gooi - of
the tomb. Psychagogoi Gooi - Lament priest. Psychagogoi
Gooi. Hermit of darkness

I am the threne singer whose song rouses Death from
shadows. She partakes in my revere, and joins with me in
cantor and in verse. For I am her muse, the sojourner of
tomb incubation. Swathed in grave soil, ash and the
shifting shadows of dusk. I wail my threnody with the
sepulchral tongue of goetia, and open the gates of
twilight to bare the tunnels of Night. It is here that in
hymn I proclaim myself Death's neophyte and brave a black
ocean that knows no shores. I am the dirge harpist whose
song brings Death into my heart. She partakes of my flesh
and joins with me in the stilling of the breath. For she
is my gate the black ship upon the shore of my ascension.
