

## As Your God Is Failing Once Again

Nightfall

As dark's light being faded  
And my black turns into day  
My thoughts return into the grave  
Of my mind's darkest shade

As a slave I've never prayed  
To the so called "God" of light  
I've never seen a soul to be saved  
I won't beg him as I die  
As I kill the worm upon the ground  
As it eats your ruins underground  
Your God shall I eat, bit and kill  
His warm blood as it comes, my throat to sink

Pray, pray...

My hatred drawned as my sword slashes  
The flesh, giving birth to pain, the end of  
The beginning, the end of life's pride  
Of love in hate

Seek, sink deep and deeper, I drink it  
The blood, it flows, lies on my mighty face  
Harmonies in dust, brainstorm of fearless

It's mine... thy head...

Son of fire, I was born in hate, in misery  
I'm the grand one, the rapist, unholy  
Doomed to ride as the moon sings...  
The song of glory in my sword, in my soul
