

## For My Soul, When The Dark Falls Into...

**Nightfall**

Horror and agony, darkest brains reign here  
Emptiness of "modern" life, sentence me to die

The vails of "black" and "lie" have been fallen  
Front of eyes, in our minds, darker than the night  
Destiny calls my nature, take me away from here  
I won't die, I wanna fight, to build my own illusion

Corruption is not offence, but freedom always is  
Creators of despair minds, rules of our lives

For my soul, when the dark fall into...  
For my soul, when the dark fall into my heart
