

## Muscat Darkdark Road

Nightfall

Dark sun you see upon it's nothing but your faith  
Dark clouds that bring the reign  
Each soul believe in vein

Feel the heat, it's my need to see the cosmic light  
Feel the beat, it's the dream moral life denies  
I'm the one, you are done, forget the human life  
Let me scream, let me scream, I wanna touch the sky

Proud, loud, sound!  
Pain, hate, fate!
