

# The Doomsday Prediction

Nightmare

The last eruption  
Is painting the colours of the skies  
Setting the world on fire  
This premonition  
Is breaking our power and it's lies  
Raising our spirits higher

Friday...  
The sun and the earth on the same line  
Mayday!...  
It's the final sign  
Doomsday...  
Breakin' down the cycle of Mayas  
Friday...  
From forgotten times

A revelation  
Beyond the last breath of the age  
The only path for heaven  
Is it a fiction  
Or just the end of a presage  
Where will we find a haven?

Friday...  
The sun and the earth on the same line

Mayday!...  
It's the final sign  
Doomsday...  
Breakin' down the cycle of Mayas  
Friday...  
From forgotten times

Mankind will return to dust  
Cropped into the darkness...  
It's a Friday of December

Ancient Mayas have believed in their visions  
A bloody thunder will come from the past...

Friday...  
The sun and the earth on the same line  
Mayday!...  
It's the final sign  
Doomsday...  
Breakin' down the cycle of Mayas  
Friday...  
From forgotten times
