

Argha Noah

Nightmares on Wax

The waters of chaos
were a blessing in fact,
that brought new life.
Each year
when the waters of the flood would recede,
leaving a course of fresh minerals and nutrients
in the waters,
which would then cause
the food to grow,
and spring would be a beautiful time in Egypt,
because of the waters of chaos.
They celebrated the coming of the waters of chaos
bringing the new life.
They call that celebration in Egypt
meaning 'Argha Noah',
not the 'Arc of Noah',
but 'Argha Noah'.
