

# Foul Vile Life

Nightrage

Through ages, of endless battle  
Intrinsic pale pages, of my dark life  
Nobody could ever imagine  
How I feel inside  
This terror of my conscience  
Makes me crumble and die

I wanna escape this reality  
Full of fake images  
Dreaming, through this agony  
Break away from this fear

I will never change it seems, endless and black  
It's like a dream within a dream, I'm lost and way off track

Foul benighted and false  
Vile holy vows  
Life and death swallowed

Foul benighted and false  
Vile holy vows  
Don't wanna listen to these lies no more

I wanna escape this reality  
Full of fake images  
Dreaming, through this agony  
Break away from this fear

Nobody could ever imagine, how I feel inside  
It's like a dream within a dream, I crumble and die

Foul vile and life  
and death you swallowed
