The Wayfarer

Nightwish

I went into the wilderness with Uncle Walt I discovered the wild Learning to suck all the experience Seeing the world through cradle's bars

The wild blessed me with an errant mind Showing the way for the ultimate lore I went around the world, beyond the wild Finding my home from an ocean shore

Wayfarer, heartlander What if I only had One more night to live

Home is where the way is My road goes on forever One more voyage to go

Wayfarer, heartlander What if I only had One more night to live

Dead to the world Alive for the journey

Wayfarer, heartlander What if I only had One more night to one more night to live

Wayfarer, heartlander What if I only had One more night to live

Home is where the way is My road goes on forever One more voyage to one more voyage one more voyage to go
