

Pilot of my mind

Nightwork

Changed
Baby girl I have changed
Just open up your heart for me
Try to find a little love for me
Changed
Baby girl you have changed
Try to find out what we used to be
You know I'll always be there for you

Changed
Because I was
.....
Open up your heart for me
You know I can't stand it for real
.....
..... let you go

Love never be the same
She just doesn't know my name
She playing this game
for the sick of her own fame

World is breaking
My friends aching
Troublemaking is shaking
People are dying
Politics lying
.....
Killing another

Love never be the same
She just doesn't know my name
She playing this game
for the sick of her own fame

This game's got simple rules
Someone wins but now I lose
,.....

No need to feel sorry
I know way back to history
Music is my victory
