

Cloud Nine

Nik Kershaw

High above the push and shove, I float without a sound
Paradise found
I can see a lilac field, a blue and crimson sky
How lucky am I?

And sunlight makes it alright, makes me shine
I watch you watching this view doing fine

But even though the view is ours, the pleasure is all mine
Living on Cloud 9

High above a crowded street a little bird of grey
Sings have a nice day
I can hear the falling rain, a crashing ocean wave
And Dagenham Dave

And music makes me lose it, makes me shine
When he sings "Oh my darling Clementine"

But even though the song is ours, the pleasure is all mine
Living on Cloud 9

I own my world, I own my world and all that's in it
It all belongs to me
I own my world, I own my world and all that's in it
It all belongs to me

I would love to share my love with you
But you don't see all this beauty like I do

And even though the world is ours, the pleasure is all mine
Living on Cloud, get off of my Cloud 9
