

Got a badge upon my chest  
I'm a cut above the rest  
So I can tell you what to do

Got my regimental hat  
Got my "by the good book" chat  
So I can tell you where to go

I've got a job to do and I'm telling you  
I intend to do it well  
It's easy when you know how

Got my smart uniform  
And my duty to perform  
So I  
Don't care you who you are

I'm the only one who can spoil your fun  
With one shake of the head

It's easy when you know how, know way  
Know where and know today  
Know mercy, know time  
Know reason, know rhyme  
Know how

I can tell you I'm the law  
With my medals from the war  
So don't tell me what to do  
With my narrow point of view

Though I know you're probably right, I guess  
It's still not easy saying yes  
It's easy when you know how, know way  
Know where and know today  
Know mercy, know time  
Know reason, know rhyme

Know how
