

# Take My Place

Nik Kershaw

Rise and greet the great pretender  
He's hungry for your crown

Do you want it?  
Do you want my place?  
You can take my place

Do you want it?  
Do you want my place?  
You can take my place

Heart of gold and mind of putty  
They made me up they'll make you up as well

Do you want it?  
Do you want my place?  
You can take my place

Do you want it?  
Do you want my place?  
You can take my place

I know a thing or two  
But I hope it's good for you

The time has come for abdication  
So pass it on, yeah pass it on

Do you want it?  
Do you want my place?  
You can take my place

Do you want it?  
Do you want my place?  
You can take my place

I hope you'll understand  
If it goes the way they planned

Do you want it?  
Do you want my place?  
You can take my place

Do you want it?  
Do you want my place?  
You can take my place
