

You're taking my pictures,
You make me sit still
My eyes and my features can not be real
So, why are you wasting your time on controlling
my life if you know that you never will right

I'm so tired of talking
And a magic is not working
I am standing here alone
Be afraid of me

I will bite your heart
I will bite you hard
You will feel my love
And in the hardest part
I will look at you with my hungry eyes
You are hypnotized
Do you realize (2x)

You're making the star of me
Getting apart from me
Wanting you hit it Tarantino and me
I live online while you touch my spine
I'm your perfect diamond
You're enjoying my life

I'm so tired of talking
And a magic is not working
I am standing here alone
Be afraid of me

I will bite your heart
I will bite you hard
You will feel my love
And in the hardest part
I will look at you with my hungry eyes
You are hypnotized
Do you realize (2x, 2x)
