

## Bite

NIKITA

You're taking my pictures,  
You make me sit still  
My eyes and my features can not be real  
So, why are you wasting your time on controlling  
my life if you know that you never will right

I'm so tired of talking  
And a magic is not working  
I am standing here alone  
Be afraid of me

I will bite your heart  
I will bite you hard  
You will feel my love  
And in the hardest part  
I will look at you with my hungry eyes  
You are hypnotized  
Do you realize (2x)

You're making the star of me  
Getting apart from me  
Wanting you hit it Tarantino and me  
I live online while you touch my spine  
I'm your perfect diamond  
You're enjoying my life

I'm so tired of talking  
And a magic is not working  
I am standing here alone  
Be afraid of me

I will bite your heart  
I will bite you hard  
You will feel my love  
And in the hardest part  
I will look at you with my hungry eyes  
You are hypnotized  
Do you realize (2x, 2x)
