

# Around The World

Nikka Costa

Everyone around the world  
Will find themselves about to fall  
In my case I've gotten down, gotten up  
Laid back down, filled my cup and had to crawl  
But it's clear that it's my time to be here  
And I'm gonna make it clear to you all

We spend our lives trying to get over  
On this roller coaster that we're traveling on  
And everyday we ride the elevator  
No matter where it takes ya  
Up or down

Don't let it get you down  
Love will always be your soldier  
Wiping every tear you cry  
Yours for always and forever  
Yours until the end of time

Everyone around the world  
Will find themselves with the chance to fly  
In that second we decide if we ride  
Or if we'd be satisfied to pass it by  
But it's clear that it's our time to be here  
And we've gotta make it clear all our lives

We spend our lives trying to get over  
On this roller coaster that we're traveling on  
And everyday we ride the elevator  
No matter where it takes ya  
Up or down

Don't let it get you down  
Love will always be your soldier  
Wiping every tear you cry  
Yours for always and forever  
Yours until the end of time

When ain't nothin' goin' right  
Love will be your soldier  
When all you can do is cry  
Love will be your soldier  
When no one is around  
Love will be your soldier  
When your world is tumbling down  
Love will be your soldier
