Cry Baby

Nikka Costa

Go ahead and cry baby Cry baby all night long Just like I cried baby On the pillow that you used to lay on

The sun is out and my Sorrows finally drowned So go on and turn it up 'Cause it's my favorite song I sucked it up And washed your memory down I've finally let you go And now you comin' back around

One minute sooner and my heart Was good as gold But time's a bitch and now it's Turned my heart to stone, so

Go ahead and cry baby Cry baby all night long Just like I cried baby On the pillow that you used to lay on

You made our bed And now I gladly lay in it 'Cause there's way more room And I use every single bit It's true it's sad 'Cause you and I we were the shit 'Cause our love was real And all you got now's counterfeit

But it's cool I'm feelin' better all the time As long as I know that you sittin' home cryin', so

Go ahead and cry baby Cry baby all night long Just like I cried baby On the pillow that you used to lay on

No wonder you cry baby Cry baby all night long Just like I cried baby On the pillow that you used to lay on

One minute sooner and my heart Was good as gold But time's a bitch and now it's Turned my heart to stone, so

Go ahead and cry baby Cry baby all night long Just like I cried baby On the pillow that you used to lay on

Need a little something to make me feel better

Need a little something to make me feel better
