

## I Believe In Love

Nikka Costa

I believe in love  
I believe it every time I see you  
Walking by my side  
It's something I can't hide  
I believe in love  
I believe it every time I hear  
Your laughter flow with mine  
Oh I can see it shine  
Like a super nova star  
Like a glow worm in a jar  
The light is just the same  
And love is not a game  
So believe in me my friend  
And this joy will never end  
In a hundred years or two  
I'll still be loving you

I believe in ghosts  
I believe in frankenstein the most  
And even halloween  
The moon is cheesy green

Like a super nova star  
Like a glow worm in a jar  
The light is just the same  
And love is not a game  
So believe me my friend  
And this joy will never end  
In a hundred years or two  
I'll still be loving you  
I believe in love  
I believe it every time I see you  
I believe in love  
I believe it every time I see you  
I believe it every time I see you
