

# Summertime Guys

Nikki Cleary

Summer's comin'  
There're gonna drive us crazy  
Let's go!  
Oh yeah

When I saw him diving,  
Diving deep into the deep end  
I just had to ask my girlfriend  
Who he was  
She said I don't know his name  
But, he's been sweating you all day  
So maybe you should dive in  
With him, girl because

Summer's here, the radio is playin'  
All the songs we know  
There're gonna drive us crazy  
Ready set go!

Summertime guys  
School is out, the sun is shinin'  
Summertime guys  
I think I wanna make him mine  
Nothin' like the feelin'  
That you get inside  
Look him in the eyes  
Summertime guys

Saw him at the movies  
Yeah, he said he thought he knew me  
From the mall or maybe school,  
And he was hot  
Said there was a party  
On the beach at seven-thirty  
Would I like to meet him there?  
I said "Why not?"

I call my girls on the phone  
Said there's a party goin' on  
It's time to light this rocket  
Seven, six, five, four, three, two, one!

Summertime guys  
School is out, the sun is shinin'  
Summertime guys  
I think I wanna make him mine  
Nothin' like the feelin'  
That you get inside  
Look him in the eyes  
Summertime guys  
Summertime guys

All the songs we know  
There're gonna drive us crazy
