

# Dream

Nikki Flores

Ohh, yeah

I sit in my room thinking bout the look in your eyes when you stare at me  
I'm wirting your name a billion times in my head  
Dreamin of you is getting me through when I start to lose my sanity  
I'm tryin to replay everything you say

Now did it really happen or did I just imagine  
If it isn't so, then I don't wanna know

Countin the stars on the ceilin Can't get enough of this feelin If this isn'  
t real, just let me be  
Don't wake me up  
I just wanna dream

I could get used to the way that it feels  
Boy the way you put your hand in mine  
I'm picturin us falling in love  
I wonder if you do the same, do the same  
I'm dialin your number over and over  
Just to hear your voice and leave a message  
I turn off the light, daydream all night  
cause I ain't gonna sleep anyway

Did it really happen or did I just imagine  
If it isnt' so, then I don't wanna know

Countin the stars on the ceilin  
Can't get enough of this feelin  
If this isn't real, just let me be  
Don't wake me up  
I just wanna dream

La la la la la  
Don't wake me up  
Yeaah  
Don't wake me up, oh no  
Dreammmmm

Countin the stars on the ceilin (I just wanna dream)  
Can't get enough of this feelin  
If this isn't real, just let me be  
Don't wake me up  
I just wanna dream

Countin the stars on the ceilin  
Can't get enough of this feelin  
If this isn't real, just let me be  
Don't wake me up  
I just wanna dream

I just wanna dream  
I just wanna dream
