

# Flowers

Nikki Flores

I'm complicated, my colours are shaded  
Making me strong but sometimes I've faded  
I can't be perfect, not even close to  
I let my guard down and baby you know you

Push me too hard  
It's more than I can take  
I'm fragile I can break like flowers  
Don't tear us apart  
It took so long to grow  
Don't let the petals fall like flowers, flowers, flowers, flowers

I was so open I'm starting to close  
Defending my heart like a thorn on a rose  
Don't let it dwindle down into nothing  
Bring back the man that I fell in love with

You pushed me too hard  
It's more than I can take  
I'm fragile I can break like flowers  
Don't tear us apart  
It took so long to grow  
Don't let the petals fall like flowers, flowers, flowers, flowers

Flowers need the sun  
Flowers need the rain  
But they don't need someone  
They don't feel the pain  
Like I do, I do  
I need you

Don't let it dwindle down into nothing  
Bring back the man that I fell in love with

You pushed me too hard  
It's more than I can take  
I'm fragile I can break like flowers  
Don't tear us apart  
It took so long to grow  
Don't let the petals fall like flowers  
You pushed me too hard  
Don't tear us apart  
Flowers  
Like flowers
