

# Nothing

Nikki Flores

[Verse 1]

I lost all senses the moment that I saw your face  
Knew right away nothings ever gonna be the same  
Crazy to know how it feels this way  
Even if I had nothing

[Hook]

I see it so clearly if I let you go  
That I would be losing what matters the most  
The hurt fades away when you're holding me close  
And I would be loving you even

[Chorus]

If I had nothing at all  
If I had nowhere to go  
If my world fell apart  
If it crashed at my feet  
And if you were all that was left of me  
I'd have everything, even if I had nothing  
Even if I had nothing

[Verse 2]

Feel like I'm drowning when it's so hard to find my faith  
Got something nobody's ever gonna take away  
I breathe you in and I know I will be okay  
Even if I had nothing

[Hook]

I see it so clearly if I let you go (if i let you go)  
That I would be losing what matters the most  
The hurt fades away when you're holding me close  
And I would be loving you even

[Chorus]

If I had nothing at all (nothing at all)  
If I had nowhere to go (nowhere to go)  
If my world fell apart  
If it crashed at my feet (crashed at my feet)  
And if you were all that was left of me  
I'd have everything, even if I had

[Bridge]

Nothings gonna change the way I feel  
Home is wherever you are  
And as long as you live in my heart  
Even if I had nothing

[Chorus]

If I had nothing at all  
If I had nowhere to go  
If my world fell apart  
If it crashed at my feet  
And if you were all that was left of me  
I'd have everything,  
Even if I had nothing (ohhhh)

[Fade Away]

If you were all that was left of me  
I'd have everything  
And if I have nothing
