

Out Of Nowhere

Nikki Yanofsky

Mmm

Waiting for your call alone in the dark
Hours have passed still the phone isn't ringing
Everybody could see
You've grown tired of me

Suddenly we've come undone
Unraveling as you pull away from me
Yesterday we were fine
When did you stop being mine, oh mine

Out of nowhere
Your love disappeared
Vanished into thin air
Out of nowhere
You're like a stranger to me
And you don't ever care

Out of nowhere
Out of nowhere

Didn't see this coming but now I see the signs
Was another lady running through your mind
Are we over for real?
Tell me how you really feel

Out of nowhere
Your love disappeared
Vanished into thin air
Out of nowhere
You're like a stranger to me
And you don't ever care

Out of nowhere
Out of nowhere

Won't you please either let me know or let me go
Right now you got me feeling low, low, low

Out of nowhere
Your love disappeared
Vanished into thin air
Out of nowhere
You're like a stranger to me
And you don't ever care

Out of nowhere
Out of nowhere
