

# My Aim Is You

Nikola Šarčević

All my friends, they say  
They wanna conquer the world today  
They got so many dreams to catch  
And many things to do

But me, I'm not the same  
I only have one single aim  
Yeah, only one thing's on my mind  
And that is you

'Cuz all I want is to be with you  
It's all I want  
It doesn't really matter what we do  
'Cuz all I want is to be with you

I could be sick, poor, old or blind  
Don't care as long I have you around  
No my condition doesn't count  
As long as I'm with you

And true love is hard to find  
At least the one of your kind  
And to have that love  
There's nothing I would not do

'Cuz all I want is to be with you  
It's all I want  
Hoping that you say you love me too  
'Cuz all I want is to be with you

'Cuz all I want is to be with you  
It's all I want  
It doesn't really matter what we do  
'Cuz all I want is to be with you

It's all I want, it's all I need  
'Cuz all I want is to be with you  
Only be with you
